

To whom it may concern

I Michael Johnson am a Trained Mechanic and did work on Bryan Clayborn car, in the process I took the licence plate off for the fact that once bodor plates were stolen off a car I was working on bodor, So to prevent this from happening agin I took the plates off of every car I had in my care for any length of time. When Bryan Told me he was ready to pick-up his car I ended up putting the wrong plates on his car. At the Time I had nine cars in my care, all of which I took the plates off of, when I went to put Bryan's plates Back on I must have installed the wrong ones. Please Do not Hold Bryan Clayborn responsible for this mistake. I am willing to appear in ~~Court~~ Court and speak on this matter. I can be reached at
